

<p style="text-align: center;">MEETING RARE-FLAME Toulouse 2006, September 25 and 26</p>
--

Workshop « territorial intelligency »

Identified function of the regional agencies :

Prospective, making up of European projects for local implementation, need of experiment and evaluation for spreading, regional observation, regional resource center, animation of regional networks, contribution to regional politics.

Identified function of the local agencies :

Local resource center, local implementation of projects with return of information on regional level, contribution to local politics, collect of local data and contribution to regional tools of observation, interface with the local actors (consumers, users....)

Conclusion

A shared acknowledgment on the need to work together and the willingness to do more and better for the territories.

To rest on the networks RARE and FLAME and to reinforce exchange and action between these two networks for the territorial intelligency.

Recommendations

- to allow time for share and exchange
- to avoid the division of the activities into different sectors and try to adopt a win-win solution
- to work on the competences
- to describe the functions and complementarities of each agency
